

CHIJINDU OKPALANWEZE

Full-stack Developer

SUMMARY

Full-stack web developer with hands-on experience building scalable , responsive, and user-focused web applications using React, Next.js, TypeScript, Prisma and Tailwind CSS. Skilled in both front-end and back-end development, authentication and modern UI/UX design. Adept at solving real-world problems through clean, maintainable code and efficient project management.

PROJECTS

QUICKCART E-COMMERCE

Next.js | MongoDB | Clerk | Tailwind CSS | Cloudinary

- Developed a **full-stack** E-commerce platform with seller dashboard.
- Integrated Google authentication using **Clerk** .
- Implemented a modern UI/UX while maintaining responsiveness across different device sizes.
- Designed intuitive seller interface for managing products.

BOOKWORM APP

React Native | Expo | Express.js | Cloudinary | MongoDB

- Developed a full-stack mobile book recommendation app that allow users to post book info and upload book pictures.
- Express.js / Node.js for back-end to handle API request with JWT authentication.

ADMIN DASHBOARD

React | Refine | Ant Design | GraphQL

- Developed a dynamic front-end admin dashboard for company and sales management.
- Built interactive charts and Kanban board with drag-and-drop features.
- Implemented full CRUD with advanced filtering and pagination.

STORY FLOW BLOG

Next.js | TypeScript | Prisma | PostgreSQL | NextAuth | Cloudinary | Tiptap

- Developed a **full-stack** blog with role-based access , rich-text editor (Tiptap), and media upload.
- Built an admin dashboard for managing users, post and analytic.
- Designed and managed a structured database using Prisma ORM with Neon PostgreSQL, optimizing queries and ensuring data consistency.

WORK EXPERIENCE

INFORMATION TECHNOLOGIST / DATA ENTRY CLERK

ISP Computer Institute – Kano, Nigeria. (June - December 2019)

- Achieved accuracy in data entry while maintaining data integrity and minimizing errors, contributing to improved overall data quality.
- Managed records using Microsoft Office and database management systems
- Developed attention to detail and task prioritization under deadlines.
